International Journal of Fracture

CONTENTS OF VOLUME 43 (1990)

Vol. 43, No. 1, 1 May 1990

ZHIGANG SUO and J. W. HUTCHINSON	Interface crack between two elastic layers	1
W. I. NEWMAN and L. KNOPOFF	Scale invariance in brittle fracture and the dynamics of crack fusion	19
A. LA BARBERA, M. MARCHETTI and S. TIZZI	Elasto-plasto overall response in single and mixed mode crack configurations	25
R. H. DODDS, Jr. and D. T. READ	Experimental and numerical studies of the J-integral for a surface flaw	47
L. M. KEER and QUANXIN GUO	Stress analysis for symmetrically loaded bonded layers	69

Vol. 43, No. 2, 15 May 1990

F. SCHMIT, D. BOUVART and D. FRANCOIS	Ductile fracture characterization of polycarbonate by the R-curve method	83
Y. H. WANG, Y. K. CHEUNG and C. W. WOO	The stress intensity factor of a crack emanating from a circular hole in a finite plate by boundary collocation method	97
M. N. BASSIM and W. A. WASSEF	Propagation of a transient shear wave from a crack in an elastic plate	109
H. CHAI	Interlaminar shear fracture of laminated composites	117
E. E. GDOUTOS and M. A. KATTIS	Partially bonded rigid rounded-off corners polygonal inclusions in an elastic matrix	133

Vol. 43, No. 3, 1 June 1990

S. K. MAITI	Finite element computation of the strain energy release rate for kinking of a crack	161
B. FAUCHER and W. R. TYSON	Statistical analysis of the effect of side-grooving on the measurement of brittle fracture toughness	175
F. P. CHIANG and HUA LU	Surface and interior stress intensity factor measurement by a random speckle method	185
T. FETT, M. CASPERS, D. MUNZ and H. STAMM	Determination of approximative weight functions for straight through cracks	195
R. KIENZLER and H. KORDISCH	Calculation of J_1 and J_2 using the L and M integrals	213
CHINGSHEN LI	On the interaction among stage I short crack, slip band and grain boundary: a FEM analysis	227

Vol. 43, No. 4, 15 June 1990

YULI GAO and ZHIWEN LOU	Mixed mode interface crack in a pure power-hardening bimaterial	241
R. A. LUND and R. A. WESTMANN	Finite element analysis of hyperelastic large deformation crack tip fields	257
A. T. ZEHNDER and A. J. ROSAKIS	Dynamic fracture initiation and propagation in 4340 steel under impact loading	271
K. KAZAWA, K. KISHIMOTO and S. AOKI	Finite element study on size requirement for stress intensity factor characterization under biaxial loading	287
R. FRASSINE and A. PAVAN	An application of viscoelastic fracture criteria to steady crack propagation in a polymeric material under fixed deformation	303

AUTHOR INDEX, VOL. 43 (1990)

International Journal of Fracture

CONTENTS OF VOLUME 43 (1990)

Vol. 43, No. 1, 1 May 1990

	Meetings calendar	R2
S. H. YOON and C. S. HONG	Modified end notched flexure specimen for mixed mode interlaminar fracture in laminated composites	R3
HAO TIAN-HU	Probability theory for a stress field near a crack	R11
	Corrigendum	R19

Vol. 43, No. 2, 15 May 1990

	Meetings calendar	R22
E. SMITH	The failure of an engineering structure containing a weld crack: weld material is ductile	R23
X. D. WANG	The interaction of elastic waves near the interface crack	R29
R. M. V. PIDAPARTI, W. SOEDEL and T. Y. YANG	Some observations on crack extension direction in single edge crack specimens for SBR and NR	R33

Vol. 43, No. 3, 1 June 1990

	Meetings calendar	R38
N. I. IOAKIMIDIS	Symbolic computations: a powerful method for the solution of crack problems in fracture mechanics	R39
A. G. ATKINS	Scaling of J_R curves	R43

Vol. 43, No. 4, 15 June 1990

	Meetings calendar	R50
HAO TIAN-HU	A theory of the appearance and growth of the micro-spherical void	R51
P. J. CALLUS and C. C. BERNDT	Mode II fracture toughness test for thermally sprayed coatings	R57
